Product Awards & Preferred Products 2015

Dr. Sabiha S. Bunek
Editor-in-Chief

Happy New Year! THE DENTAL ADVISOR awards are one of the most respected awards created to recognize quality products and equipment, taking into account evidence-based clinical and laboratory research to honor the best.

To be considered for an award, products have to receive an excellent rating by THE DENTAL ADVISOR, as well as stand out from all others in the market place. With hundreds of products to review each year, the task to pick the best of the best is not simple. Our editorial board spends weeks debating, discussing, and voting on products that fit our criteria for innovation, quality and excellence in each category. In the end, only one product is chosen for the Top Product Award, and the runner up is awarded the Preferred Product Award.

I extend my congratulations to our winners, and many thanks to our editorial board and our 250 practicing clinical consultants in the United States. Tried and true products, as well as newer products, are found on this list that acts as a buyer's guide for dental professionals worldwide. Thank you for your continued support, and as always, your comments and suggestions are always welcomed; you can reach me at drbunek@dentaladvisor.com.
